Twelve Steel Ships Are Delivered to Board Complete.

By Associated Press Dispatch.

Washington, May 6.—Ten steel ships of 57,695 tons and six wooden ships of 21,500 tons were launched by United States yards in the week ending May 5, it was announced today.

Twelve steel ships of 20,180 tons were delivered to the board completed in the same period.

ONE BILLION WANTED FOR AIR CRAFTS

By Associated Press Dispatch.

Washington, May 6.—A billion dollar appropriation for aircraft production was asked of Congress today by the War Department. This would add to the appropriation \$640,000,000 already made and expended.

The estimate was presented to the House military committee by Major General March, acting chief of staff and others. Other appropriations asked as needed in the fifteen billion dollar budget included \$5,780,335,383 for the quartermaster's department and \$3,378,302,801 for the ordnance department for heavy guns and fortifications.

CLEVELAND FIGURES

By Associated Press Dispatch. Cleveland, O., May 6.—Revised figures put the third Liberty Loan total for this district at \$379,131,750. The district's quota was \$300,000,000.

BRITISH LINES ADVANCED CONSCRIPTION IS DENOUNCED BY SPEAKERS

John Dillon Speaks from Same Platform with DeValora, Head of Sinn Feinn.

(Associated Press)

London, May 6.—Anti-conscription speeches were made from the same platform by John Dillon, Nationalist, and Professor DeValora, head of the Sinn Feinn yesterday.

The demonstration was attended by 15,000 persons.

Mr. Dillon said that if the Irish kept united and determined for another two weeks they would defeat conscription. He earnestly appealed for a frank and friendly co-operation throughout Ireland. Without this unity was impossible, he said.

The nationalist leader declared he was convinced it would take an army such as England could ill spare to carry out successfully conscription in Ireland. He was also convinced the government would split on the Irish rock and instead of destroying the Irish nation the Irish would destroy them.

JAPANESE DENIAL MACHINE GUN TALE

By Associated Press Dispatch. Moscow, April 28.—Official denial has been made by Japanese Consul Uyeda to the Russian foreign office to rumors that the Japanese are placing machine guns in Vladivostok and are arranging to increase their forces there.

MRS. POTTER PALMER DEAD OF PNEUMONIA

By Associated Press Dispatch.

Sharsota, Florida, May 6.—Mrs. Potter Palmer of Chicago is dead at her winter home here. She died of pneumonia.

Mrs. Palmer who was born in Louisville, had been ill some time.

During the Chicago International Exposition Mrs. Palmer was president of the Board of Women's managers and visited Europe for the purpose of interesting foreign governments. Later she was appointed by Presidents of the United States as the only woman member to the American commission to the Paris exposition. She was the possessor of the membership of the Legion of Honor awarded by the French government.

BY ONE VOTE

By Associated Press Dispatch.

Washington, May 6.—By a margin of one vote a motion proposing that the Senate proceed next Friday to consider the House women's suffrage resolution, was defeated in the Senate today. The vote was 40 to 21, just one less than the necessary two-thirds.

BRITISH FORCES MAKE CAPTURES IN PALESTINE

(By Associated Press)

London, May 6.—The British have withdrawn their troops from Es Salt, east of the Jordan, in Palestine, the war office announces. Nearly 1,000 Germans and Turks, and 29 machine guns have been captured in the last few days.

AMERICAN TROOPS ON BOTH TOUL AND LUNEVILLE FRONTS HAVE BEEN UNUSUALLY BUSY WITH THE GERMANS. ARTILLERY BREAKS UP HUN ATTEMPT TO OCCUPY AMERICAN TRENCHES.

(By Associated Press Dispatch)

Germany has not yet taken up the offensive in the west and probably another effort against the allied army is held in abeyance to be made simultaneously with the heralded drive against the Italians.

The allied troops in an attack between Lure and Drancourt have advanced their line 500 yards on a front of 1,000 yards, gaining positions which strengthens the important sector of the front between Scherpenberg and Mont Rouge. German counter attacks were repulsed with loss.

Berlin attempts to make out the attacks were made in large force, saying they were repulsed and the French lost 300 prisoners.

The coming of a strong push on the Italian front is heralded officially from Vienna, which announces Emperor Charles and his military advisers are now on the front. In Trentino and the Tyrol there have been large movements of enemy troops. Rome does not report any marked infantry fighting but the Italian war office notes a great increase in the violence of the Austrian artillery fire.

Emperor Charles leaves his capital at a time when Austria is seething with unrest. In all parts of his domain the liberals are protesting against his action in dismissing parliament.

American troops on both the Toul and Luneville sectors have been more busy than usual with the Germans. Northwest of Toul the Germans attempted to occupy a trench formerly held by the Americans and which was evacuated a month ago. The American artillery broke up the German effort, but further activity is not unexpected.

THE IRREPRESSIBLE AUSTRALIANS

With the British Army in France, May 6.—(Associated Press Dispatch)—Last night the irrepressible Australians gave the Germans west and southwest of Morlancourt, between the Acre and the Somme rivers another drubbing and advanced the allied line to a depth of 500 yards along a front of 2,000 yards.

The enemy offered strong resistance which was entirely to the liking of the hardy Australians, who inflicted casualties and came back with 150 Germans. The losses of the attacking troops were slight.

DIRTY WORK BY AVIATORS OF GERMANS

Attempt Made by Enemy Fliers to Deceives American Fliers by Painting Machines Like Allies'.

(By Associated Press)

With the American Army in France, May 3.—German aviators are now resorting to unsportsmanlike tactics in an effort to outwit American fliers. The trickiness of the German soldier afoot is emulated by enemy aviators who are marking their machines to make them look as much like allied markings as possible. Germans have taken to rounding off the corners of

the cross on their planes to make them look like allied badges.

The game of the German airmen is to play around, getting in a shot if he can, and then run. American fliers, for fear of attacking a probable friend must get up close to an enemy machine, usually after considerable maneuvering before opening a fight.

CASUALTY LISTS

By Associated Press Dispatch.

Washington, May 6.—The casualty list today contained 88 names divided as follows:

Killed in action, 6; died of wounds, 3; died of accident, 2; died of disease, 9; died other causes, 1; wounded severely, 4; wounded slightly, 48; missing in action, 15.

THE I. W. W.

By Associated Press Dispatch.

Washington, May 6.—The bill declared frankly to be aimed against the I. W. W. outlawing organizations which use or advocate violence to bring about any governmental, social, industrial or economic change during the war was passed today by the Senate and went to the House.

STARTLING SUCCESS OF AIRMEN

British Aviator Just Back From The Front

Has Brought Down 106 Enemy Planes in Six Weeks

Supreme Confidence of "Our Fellows" Half The Battle

(By Associated Press Cable)

London, May 6.—A wounded British aviator back from France reports his squadron operating in an important sector on the Amiens sector has established a record by bringing down 106 enemy machines in 6 weeks, including 21 in one day.

The only member of the squadron known to have been wounded up to this time, this man returned to London, said it was hard work getting the Germans to fight.

"The supreme confidence of our fellows is half the battle," said the aviator.

"During the German offensive they have been doing four shows a day, returning only for ammunition and an occasional meal and possibly a game of cards.

"Nearly all of the machines we brought down were two seaters. In fact few of the German airmen will fly anything else. The pilots like a man with a gun behind them."

REPRISALS THREATENED BY BERLIN

Lynching of Prager Seized by German Editors as an Excuse for Reprisal Demand.

(Associated Press)

Amsterdam, May 6.—The lynching at Collingsville, Ill., last month, of Robert P. Prager, a German who was accused by a mob which hanged him of disloyalty has infuriated German editors. The Zeitung Am Mittag of Berlin, called upon German government to make strong representations at Washington demanding of the United States government that Germany holds a number of American prisoners upon whom reprisals might be taken "so as to prevent the lynching of Germans in America from becoming a fashionable sport."

PASS SHERWOOD BILL.

By Associated Press Dispatch. Washington, May 6.—The Sherwood bill granting a minimum pension of \$25 a month to Civil War veterans was passed by the House today and now goes to the Senate.

BRINGS DOWN ONE MORE GERMAN PLANE

Major Raoul Lufbery, premier American "Ace" has destroyed his eighth German airplane in battle. This photo is the first one taken of Major Lufbery in an American uniform. Since his transfer from the Lafayette Escadrille to the American Aviation Corps, American aviators in the French and American service have accounted for forty enemy planes in the last two months.

PRESIDENT ORDERS PROBE

Conduct of Aircraft Program will be Investigated.

By Associated Press Dispatch. Washington, May 6.—A Department of Justice investigation on the charges of graft in aircraft production, made by Guston Borglum, the sculptor, was ordered today by President Wilson. Borglum's charges of pro-German influence will be investigated. Demand for a criminal investigation was made in the Senate recently.

Investigation by the Department of Justice was asked the President by Howard Coffin, former chairman of the aircraft board who declared he requested it that the reputation of innocent men might not be ruined by charges made.

PEACE OFFER NOT MADE SAYS BALFOUR

By Associated Press Dispatch. London, May 6.—Foreign Secretary Balfour told the House of Commons today that no peace offers had been made recently by the enemy. He added:

"There is no representative of a neutral nation in this country who has made tentative or informal suggestions for peace negotiations."

FAYETTE OVER TOP WITH \$100,000 IN EXCESS OF QUOTA

Total Subscriptions to Third Liberty Loan in Fayette County About \$655,000, and During the Last Week \$6017 Also Added to Saving Stamps.

Monday morning Chairman C. P. Ballard, of the Fayette County Liberty Loan Committee announced that Fayette County has gone "over the top" with fully \$100,000 to spare, in the Third Liberty Loan campaign, the total figures being right around \$655,000 and the county's quota, which was underwritten by the bankers of the county at the beginning of the drive, was \$554,500.

Chairman Ballard announced his great satisfaction over the prompt manner in which the quota of the third issue of the bonds was taken in this county and declared that the splendid response of the county would forever be a bright spot in the county's history and unmistakable evidence that Old Fayette is doing her part, and will continue to do her part just as nobly in the future.

It is interesting to note that while Fayette was rousing up the big over-subscription during the last week, that the amount of the War Savings and Thrift Stamps was reached above \$6,000 for the week, and that the demand for the "Baby Liberty Bonds" was heavy throughout the four weeks campaign for the third Liberty Loan issues of the bonds.

At noon Monday it was believed that the inquiry of the grand jury might cover a period of two days, or if the investigation was completed Monday it would be late in the evening.

YOUNG GIRL DIES AT SPRINGFIELD HOSPITAL

Nellie Merriman died at the Tuberular Hospital in Springfield, Saturday night after a lingering illness.

She was quite young and a sister of "Blind Tom" Merriman, who was devoted to her and played his French harp for long hours on the streets of this city in the effort to provide for her.

The Liberty Loan Honor Flag has been floating from the court house since early in the campaign, having been awarded because of the county's prompt action, or rather because of the prompt action of the bankers, which has pleased all residents of the county.

ECLIPSE OF SUN JUNE EIGHTH

It will grow dark twice in one day on June 8 in parts of the United States.

On that day, in a broad band from Seattle, Wash., to Jacksonville, Fla., before sunset a gigantic shadow will literally wipe the sun out of the sky for an instant.

The total eclipse of the sun in June will cover the greatest path in the United States since 1865, and will present the greatest opportunity for observation of any eclipse the country has ever seen. Besides its popular interest the time of an eclipse is of deep scientific value. Because of the intense light from the sun, certain of its outer layers can only be studied at the time when the disc of the moon hides all but the outer layers of the sun.

RED CROSS ACTIVITIES

A question often asked—"What the Clubs of the United States are Doing for War Service?" is answered in the last General Federation Magazine

Among other things it says:

"That inquiry has come to the service officer more times than we can take space to record. It is constant. Each time its comprehensive character overwhelms us. What are the clubs doing in war service? Everything.

"They have entered into all kinds of Red Cross work, which no longer means the mere making of bandages and hospital supplies. Red Cross service now embraces caring for every possible need, first of the sick soldier, second of the family he has left behind; third of the refugees, the repatriates, the convalescents, the halt and the blind. It means food, shelter, clothing; but most of all it means a service of love and of courage, aid where aid is most difficult to give.

"All that it means is to be told at the Hot Springs biennial.

"Dr. Herbert Putman, Librarian of Congress, will speak on the work of the American Library Association and its part in the war. Richard Dana, president of the American Service Reform League, will present the effect of the war on civil service and the difficulties encountered at this time. Jeannette Rankin, member of Congress from Montana, will be the main speaker for the department of legislation, and Mrs. Mary C. Bradford, president of the National Education Association, will tell how the war has modified our ways of thinking and doing so that civil education has assumed a new significance and a new place.

"As soon as the country entered the war a mistaken idea seemed to become current—that in order to do war service the clubs must undertake new and foreign activities—trapping the old lines of work and searching afield for new. As a matter of fact nothing is more greatly needed than the strengthening and the fortifying of the departmental work as it exists, making it more far-reaching, potent and effective. War creates certain new lines of endeavor, but it mainly attacks the bulwarks of our social and economic structure, creating the imperative need of safeguarding these in every possible way.

"Take the public health department as an example; the war has not made new subdivisions necessary, it has merely made existing problems acute and increased the need for intelligent co-operation and intensive work. This is as true of the work of the department of industrial and social conditions.

"No single part of war service is of more importance than another. All is needed for the whole, yet there are tasks which seem peculiarly to belong to women and certain things organization of women seem most competent to accomplish or reform. The needs of the boys who are giving their lives at the front make the quickest, most insistent appeal. But the needs of the women and children who remain at home cannot be regarded as secondary. If there is one task which seems peculiarly the woman's at this time, it is that of safeguarding homes, not merely her own, but homes everywhere.

"Not for one instant must the woman who labors faithfully in preserving the integrity and efficiency of her own household be led to feel that she is not doing the highest patriotic service. It is the need of homes, of safeguarding women and children, of caring for the very foundations of our social structure, which will be presented in different ways at the biennial convention."

SECRETARY

AMERICAN COOKING ONLY CRITICISM

(Associated Press Correspondence)
Paris, April 15.—At last a French correspondent has found a weak spot in the American Expeditionary Force. The man who has ventured to strike this first discordant note is the special representative of *Le Temps* at the French front who happened to be near the American section which had

the first real fight with the enemy and so paid them a visit. He writes:

"There are certain practical points in which our allies are not yet past masters, notably cooking. At first scorning their own stews they preferred to stick to canned meat entirely. Our cooks showed them how to make soup and they soon acquired a taste for it. It won't be long before they will be making some good stuff themselves, better any way than the extraordinary mixtures I saw them eating this evening, like canned salmon with mashed potatoes and pickled cucumbers!"

Among other things it says:

"That inquiry has come to the service officer more times than we can take space to record. It is constant. Each time its comprehensive character overwhelms us. What are the clubs doing in war service? Everything.

The Third Liberty Loan

It is, although not a surprise, a matter of great satisfaction that the people have put the third liberty loan far "over the top."

While exact figures are not finally announced, owing to the fact that some of the more remote sections did not get their reports filed in time for tabulation, it seems reasonably certain that four billions of the third liberty loan bonds have been subscribed for, or thirty-three per cent more than the minimum fixed by the government.

It is possible that the final figures may exceed that enormous total. While the fact that the people subscribed this immense sum for the prosecution of the war is an indisputable proof of the patriotism and the intention to see it through, of the people, it is no more forceful evidence of the wholesome condition existing in America than is the fact that there are something more than seventeen million subscribers to the loan.

That means that people in all walks of life and in every section of the country have put their shoulders to the wheel.

The result of the campaign in Fayette county, where the people, with no campaigning at all and practically no solicitation, subscribed for six hundred and twenty-five thousand dollars of the loan, or seventy-five thousand more than the county was asked to take, is a source of great satisfaction.

Driving the German Nation

Some of the attitudes assumed by the war lords in their press to mislead the people are so inconsistent as to be only ridiculous—they are so cheap and so patent a design to deceive that the world has long since ceased to be angry with their ravings.

The press of Germany is but another proof of the density and the oxlike docility of the German people—it is proof that they are lost without the yoke about their necks and the whip of the war lords cracking over their backs. They can be turned with scarcely an effort from the right to the left—forward or backward they travel the same old road with an entire absence of thought or desire to change conditions, guided only by the word of command from the few autocrats.

When America first entered the war the German people were told that her power was inconsequential—it would not amount to any more than did Roumania. The German people believed it, every sentence and every word.

Now the German people are being told that America's tremendous power—especially in finance—is the greatest danger the world has ever known and unless Europe would become the absolute slave of this colossus across the sea, all nations must combine to crush the greatest menace. Of course, Great Britain, France and Italy should surrender unconditionally to Germany as a condition precedent to the destruction of America.

And the German people believe all that too, and proceed to transfer their hate from Great Britain to America. The Kaiser and his sons and the war lords ride along the road of skulls while the German people, securely yoked, pull the awful burdens of the war chariot. Only a few years ago, too, the world looked upon the Germans as an intelligent people.

After all that has happened and is happening it seems that any man who could handle a bunch of dumb oxen could pilot the German people with ease.

Almost "Over Night."

Almost over night, it seems, the trees and bushes have come out into full leaf. Spring and summer have come all at once in these early days of May. It nearly always happens that way, if we could only remember back to other years.

For days now the leaves and blossoms have remained neatly and tightly rolled up in a compact ball inside the locked bud awaiting only a few hours of hot sun and a warm night or two to unlock the case and permit the imprisoned leaves to unfold.

Spring has been close at hand for weeks now, the vegetation had arrived, but the spring and summer togs were all locked in the tiny suit cases of the buds. Nature didn't extend her welcome until Saturday and Sunday and the facility with which the unpacking was accomplished has been another revelation. The styles don't change, however, with nature as they do with folks. Year after year trees and bushes appear in their summer clothes of the same style and the same pattern. Each family wears its own particular and peculiar clothing and is distinguishable, at a glance, from every one of its associates by its summer clothes. And how good they all look, too.

We never grow weary with the green leaves of summer. The pattern of the oak, the maple, the elm, the ash is always the same and always beautiful.

This year the wardrobe is the same, but as beautiful as ever, style and color.

Poetry For Today

LOVE'S CAPACITY

Ah! since you came and took your place within
The garden of my soul, new flow'r's have grown
In wild luxuriance there; and these have blown
Their perfume all about. Your smile has been,
Dear one, like olden wine, and life to me,
Instead, with freedom sown,
Is hedged about with Love's capacity.

Though I be slave, I love my servitude well,
The stronger chains you forge about my will
Are welcome, for they hold me close and still,
Near to the holy place where you must dwell.
Taks all my dreams of other years than this
And these upon the restless waters strew:
I want but this; my servitude for you
Behold my lips are passioned for your kiss.

I have known freedom, but how dull now seem
Those years of liberty, before you came
I even knew the petted touch of fame
But these dissolve, like some forgotten dream
Before the glory which your love has brought,
And these strong chains your little hands have wrought.

NEED PHYSICIANS

Washington, May 6.—Thousands of doctors and surgeons throughout the country will be urged to enroll for service to meet the growing demands of the army and navy under a plan decided upon at a meeting here of practically all state committees of the general medical board of the council of national defense. The cities will be called upon to furnish most of the medical men needed, and it is expected that 7,000 will respond to the call by July 1 and 5,000 more before the end of the year. Ohio will be asked to furnish 500. State committees, after canvassing their home conditions, are to name twice the number of men in the quota of each state, and half will be expected to answer the call. Medical men who decline commissions will be called upon personally by the state committees for an explanation.

HOOVER MARKET

The Woman's Foreign Missionary Society of Grace Church will hold a Hoover Market on Saturday, May 11th, for the benefit of the French War Orphans.

son thoroughly then sprinkle over it the sweetened liquid made by stirring the syrup and ground fruits in the water. The bran should be stirred while the liquid is being added, and then mixed with a trowel or hoe for a few minutes. This bait is scattered very thinly in the evening and is an effective poison with which to kill the worms. They feed at night, and by the next afternoon their dead bodies can be found on and beneath the surface of the ground. I use this method in my garden when the worms are cutting off plants grown from seeds and which have not been protected by the paper collars. I try to scatter the mixture too thinly for chickens to pick up, but am careful not to let the chickens feed where this poison has been spread. —Agricultural College Extension Service, Ohio State University.

Farmers Get War Seed Corn

Through special arrangements completed by the Ohio State University, 11,000 bushels of seed corn have just been acquired in Pennsylvania and Delaware for distribution in small amounts at cost directly to farmers. This consignment is in addition to 67 carloads of corn of the same types from these states which the University previously obtained for Buckeye farmers. This corn is disposed of through the offices of the county agricultural agents, who are the local representatives of the University. It has shown a composite germination test of 80 per cent and was selected by corn specialists from varieties that will mature in Ohio. The last lot of 11,000 bushels for reconsignment from points in Ohio is shelled, cleaned, and bagged for delivery by express. The price of the corn is \$5.

WAR REVIEW EACH WEEK ABOLISHED

By Associated Press Dispatch.

Washington, May 6.—The War Department's weekly review of the military situation has been abolished and announcement of Secretary Baker's new plan of furnishing the nation with adequate and authentic news of American troops in France is expected shortly.

It is expected a daily summary dealing almost exclusively with American troops will be given out.

SOLDIER IS KILLED BEGGER SPARED

Paris, April 15.—(Associated Press Correspondence)—Radiating strength, vigor and health, filled with exuberance through the sheer joy of living a young soldier was walking in the beautiful bright spring sunshine one afternoon recently.

On a street corner was an old man with shaggy hair, a few rags covering his emaciated body, holding out a greasy hat in an unwashed hand, picture of uselessness. The youth dropped a copper into the old beggar's hat.

Then, suddenly, without warning, one of those abominable German shells burst with an ear piercing shriek and the young soldier was instantly killed.

The beggar escaped untouched. He is holding out his hat to passers-by on the same spot today.

AUTOMOBILES BY THE THOUSANDS

Automobiles by the thousand used the roads of Fayette county, Sunday, but the most frequently used roads were those leading toward Chillicothe. The big parade and perfect weather combining to attract by far the greatest number of visitors to the camp that ever passed through the county in one day.

The Chillicothe and New Holland pikes were alive with automobiles from early morning until late in the night, and for some time Sunday morning and evening there was not a moment when one or more machines were not in sight going to or coming from camp.

So far as known there were no serious accidents within the limits of the county.

WILL DO THE WORK SAYS MAJOR ALLEN

In a letter received from Major Reil G. Allen, a day or two ago, this significant statement is made: "Don't worry about us, for we are over to lick the Huns and we're going to do it before we return."

HELPS TO KEEP FIT

When the digestion is out of order, it throws the whole physical being out of gear. B. B. Hayward, Unadilla, Ga., writes: "Foley Cathartic Tablets give me quicker relief than any I have ever tried." They relieve bloatiness, bad breath, bloating, gas, indigestion and constipation. No griping or nausea. Blackmer & Tanquary Advt.

AUTOS STOLEN

The daily newspapers tell of Ford automobiles being stolen right along at Columbus, Chillicothe, Springfield, Dayton and other places. The time for automobile thieves to get in their work is when you are not with your machine, when it is parked or in your garage. The cheapest insurance against theft is to have a Ram anti-theft lock put on your Ford auto. We install them in five minutes for \$2.50. Two keys with each lock. Hitchcock & Dalbey. Advt.

U. S. GUNNERS DO THE WORK

Paris, May 6.—During the last three days the American artillery in the Luneville sector has completely chased the Germans from their front positions and has wiped certain sections of the targets in the enemy rear area of the map. This is the same artillery that not long ago gave a similar performance in another Lorraine sector.

On the present occasion, so far as all investigation shows, the Germans have entirely abandoned the territory at least as far back as a point beyond their second line. The only signs that they are there at all are a few machine gun posts hidden in out-of-the-way places in the back areas which cut loose when the opportunity offers. Just now the German first and second lines are in about the same condition as No Man's Land, in which latter area the Americans are working more freely than ever before.

The sections affected by the work of these American artillerymen are the line south, southwest and southeast of Halloville, approximately 13 miles east of Luneville. The American raiders have found that the shells have worked terrific havoc at many places, plainly visible where the big projectiles from the heavy guns had fallen.

**FAYETTE FARMERS
NOW PLANTING CORN**
Scores of Fayette county farmers have started the corn planter once more, and this year those who have any doubt as to the germinating qualities of the seed corn in use are taking the precaution to add an extra grain or two to each hill to insure a stand.

The general tendency of the farmers is to not plant their corn too early unless certain by reason of recent tests that the corn used will germinate.

There is every indication this year that if sufficient seed is available the largest acreage ever planted to corn in the history of the county will be the response of Fayette county farmers to the call for greater crops.

CLASS ONE STILL HAS JUST 176 MEN

Class One in Fayette county still contains 176 men who have not yet been inducted into the military service, and while a large number of these men are farmers, temporarily exempted, the list contains sufficient men to make up the next contingent if it should reach as high as 50 men, it is believed.

Next month the registration of all youths who have attained the age of 21 since June 5th last is expected, and this should add dozens of young men to the list, most of whom will be in Class One.

GOOD FOR THE WHOLE FAMILY
Every family requires a safe and reliable cough and cold remedy. Mrs. John Potter, 20 Shupe St., Mt. Pleasant, Pa., writes: "I have used Foley's Honey and Tar for colds for years and highly recommend it to all families." Contains no opiates. Checks bronchial and grip coughs, croup and whooping cough. Blackmer & Tanquary.

Certain-teed Roofing

The roof that copes with all conditions.

Sparks, smoke, gases, acids or fumes have no effect on a Certain-teed roof. Rust cannot corrode Certain-teed. The heat of the sun cannot cause it to melt or run. Certain-teed has the ability to resist every form of roofing attack, and the durability to give year after year of weather proof service, with little or no maintenance cost. Certain-teed offers every practical roofing advantage with a minimum roofing investment.

In every town, city and section you will find Certain-teed. Everywhere Certain-teed is chosen for buildings of all types and sizes, for factories, round houses, elevators, garages, warehouses, hotels, farm buildings, stores, outbuildings, etc. In artistic red or green shingles, Certain-teed is very popular for residences.

Guaranteed 5, 10 or 15 years, according to thickness.
Certain-teed costs less than any other type of roof—first cost and laying cost low, and maintenance practically nothing. Certain-teed is more economical than ordinary foil roofing, because it costs no more to lay and lasts much longer.

BIG PROPOSAL BEFORE CONGRESS

Washington, May 6.—Congress begins the week with interest centered upon the army increase program.

A redraft of the record-breaking army appropriation bill, carrying \$15,000,000,000, to provide for an army of 3,000,000 men during the coming year, was laid before the house military committee today. War department heads appeared to discuss the expansion program and explained how the huge sum of money is to be spent. Some opposition is expected in both senate and house to the administration plan to limit the nation's armed forces only to capacity for equipping, training and transporting them, but leaders of both parties now believe the blanket power will be granted.

While the house is busy with the army program, the senate this week has a long list of appropriation bills and miscellaneous matters to act upon. The postoffice budget, involving the question of the second-class postage increases effective July 1, is to have the right of way immediately. It will be followed by the conference report on the legislative, executive and judicial appropriation bill, and by the rivers and harbors budget and the naval bill.

Among measures upon which final action is expected during the week are the sedition bill conference report, which awaits approval by the house; the draft extension bills, the \$60,000,000 housing bill, the Indian appropriation bill and the measure amending the naturalization laws to provide immediate citizenship for aliens fighting under the Stars and Stripes.

The Overman bill, giving the president blanket authority to reorganize federal agencies during the war, which the senate passed last week, will be considered tomorrow by the house judiciary committee and its early passage in the house is expected.
